

RICARDO HALMOGUERA

Frontend Developer Jr.

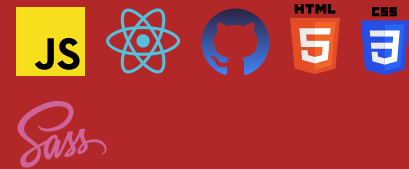

Personal Profile

With the intention of rekindling my passion for software development and after gaining experience in other sectors for several years, I have decided to refocus on my training and growth as a Front-End Developer.

For me, an ideal job as a front-end developer would consist of working on challenging and fulfilling projects that have a clear purpose and a positive impact on society.

FrontEnd Technologies

Future interest
